n. 03. 15-05-2015

E-mail : [associazionelorber@alice.it](mailto:associazionelorber@alice.it)

**Dear Lorber's friends from all over the world,**

we publish the e-mails that came to [associazionelorber@alice.it](mailto:associazionelorber@alice.it).

There will follow next the "first" exchange of ideas" of worldwide **scholars** (who have joined this initiative) on the important and topical issue of **Organ Transplant**.

Finally, we will publish the "first" question, addressed to **all the readers**, who will also become the "first" page of the "PICTURE SUMMARY BOOK of Lorber's NEW REVELATION", which will be carried out with the help of the Scholars who will partake in this initiative.

**E-mail came to [associazionelorber@alice.it](mailto:associazionelorber@alice.it)**  
*(We invite you to the send e-mail with your photo)*

## 1) Klaus Opitz from GERMANY:

Thoughts on  
**the worldwide Lorber's spreading**

In the previous JAKOB LORBER INTERNATIONAL journal it was written: *"All these commendable initiatives of meetings, groups, experts and individual followers have only **few** visits. The number of people visiting the different websites ranges from a couple of hundreds "up to tens of thousands".*

We shouldn't have such a **negative** outlook, because the Lord is working with us and will lead people, who seek the Lord **and have the necessary maturity, to his "New Word"**. Jesus Himself commanded us to be patient and He announced the great manifestation only with his renewed return. However I think we have achieved a good basis as a starting point for the continuation of the work:

- 1.** The work of Lorber (new revelation / NR) is **all available in books** (including CD-Rom), in the seventh edition (e.g. The childhood of Jesus, the Grossglockner), though unfortunately so far without a complete issue of the work in a unified layout (with the exception of the GFG and GGJ,
- 2.** Parts of the New Revelation have already been translated into **18 languages**,
- 3.** Texts can be ordered on the **Internet** in a wide range,
- 4.** We have a magazine "**Spiritual Life**", at least for the German-speaking countries with a circulation of about 3,000 specimens,
- 5.** There are frequent **Seminars and Conferences**,
- 6.** The numerous **web** sites range from "a couple of hundreds" to "tens of thousands" of visits – it would instead be **right** to say: more than 32,000 to more than 130,000 orders per **year** on the site, (eg, from Nov.2011 to April 2015 : 450,000 admissions on the site with a trend to increase, therefore up to the end of the year at least a million and a half), and there are probably still many web sites abroad of which we do not know absolutely anything about their range of spreading.

## As to the question, what can we do more?

1. Of course, the project "**Summary**" is a very good start but nothing will come out of it without the GGJ 11 and Mayerhofer, who have been excluded so far. The most important question, however, remains the **spread** of the new project "Summary".
2. **Objectives of content:**  
The arrangement of the contents of the JLI should cover as widely as possible, next to **underlying issues**, also the **present events** within the **world Community of Lorber**. (For example it is interesting to hear whether in Poland, Spain or America new groups are being formed or web sites are getting started or press debates are taking place.)
3. Finally, **the range of spread of JLI** should be extended by further involvement of **individuals** with E-Mail as well as **forum on the Internet at a worldwide level and magazines on the NR**, to create an international network and to get a better exchange of information

### **Joseph's reply:**

Dear Klaus,

although in Germany there were **10 million people who know Lorber**, this number is NOTHING compared to **2.5 billion** people referred to by the Lord to Lorber for THIS time of ours:

[GGJ 9.94.6] **Once My teaching will be brought in this manner among [of Books] the people who are of good will and have a living faith, and when at least one third of the people will know about it, I will also personally, visibly and bodily, come to different places, to those who love Me most and have the greatest desire for My return, and who for that reason will also have full and living faith.**

With regard instead to Engel and Mayerhofer, I'm interested ONLY in Lorber.

What would you say to the friends of Lorber from Portugal who say they have a "prophet" who wrote the "final part" of the Great Gospel of John?

Obviously we must have "a lot of prudence and caution" in assessing this news, and we will do it in the next journals. It could also be a total "invention", as it was written "in a mediumistic way" (perhaps "automatic writing").

Those of you readers who know the Portuguese language, can already read the book on the site [www.refugiobetania.org](http://www.refugiobetania.org) and tell us your point of view, because I DO NOT know that language.

Finally, as regards the SUMMARY which will become the "flash of light" that will light up the **2.5 billion people referred to God**, see some examples in the last pages of this journal.

Bye and thanks

### **2) Egídio Silva from PORTUGAL:**

Dear friends,

Since 2007 I have tried to publicize the work that revealed the prophet Jakob Lorber in connection with the Bible.

Among other works, perhaps this SUMMARY OF DOCTRINE, starting from the Creation to the ministry of the Lord Jesus, may be of some use. I send this work.

Fraternally in Christ.

### **Joseph's reply:**

Dear Egídio,

thanks for sending to the journal JAKOB INTERNATIONAL LORBER the "SUMMARY OF DOCTRINE" carried out by your Association.

Inform readers that this Summary is in the site [www.refugiobetania.org](http://www.refugiobetania.org).

Fraternal greetings

### 3) Bernhard from ROMANIA:

Dear Lorber's friends,  
thanks for the letter where I read:

#### "WORLDWIDE SPREADING OF LORBER"

from 1864 to date 2015

So many "good will" – "few results"

-----

So I would like to know some "Lorberians" who are active in this way so as to "materialize into practice" something on this planet following the work of Lorber.

This could be:

- Solar remedies (such as Miron with solar remedies and violet glass)
- Treatment of patients (like us with "Help for helpless sick ", or "healing through prayer"

[www.heliopahie.wordpress.com](http://www.heliopahie.wordpress.com))

- Technics
- Agriculture
- Education / Research

Just practical spirituality.

Otherwise by 2115 we will still be reading and discussing on Jesus and Lorber!

### 4) Burgunde und Gerhard from AUSTRIA (Klagenfurt):

Dear Giuseppe!

Thanks for sending the journal JAKOB LORBER INTERNATIONAL. - But with some concern we deduced from the journal that it is being planned a "summary" of the NEW REVELATION. Please remember that the word of our Lord Jesus does not need any "Summary" and that he does not want it overtly!

See: [HG 1.34.37] ..... **But at him who would dare to change a single word, or seek a better rime or to unnecessarily improve a line, I shall look with angry eyes.** Do not seek the word in the sense, but the sense in the word if you want to find the truth. For the truth is in the spirit, but not the spirit in the truth, which might be impossible since the spirit is free and preceded every rule, allowing to derive truth from it Since you say this already of your men of genius, why do you look with critical eyes at My Spirit as if a schoolboy had given you some poor work for correction?

- Therefore, if anyone should think that I do not fit into the world with that garment, let him keep Me at home. However, there will be more merit for everyone if he added to My writing a rule learnt from it rather than worldly criticism; for giving is more blessed than taking! Do understand this well! Amen.

As soon as someone "summarizes" the NEW REVELATION, there will immediately turn up someone else who will do it as well.

In this way the NEW REVELATION with high probability will be distorted. The Words of God do not need to be "summarized"; no man can "interpret" the words of the Lord in a more pure and clear way[than how He communicated them].

Anyone looking for a summary, can also refer to the "Fundamental questions of life" by Walter Lutz.

The Word of the Lord can certainly be explained to children in a way that corresponds to their understanding, but adults do not need any longer this "milk pap".

Only the Words of the Lord have and give strength and power! Summaries usually serve only the ego of the author, and have little spiritual value.

Best wishes and blessings of our Lord Jesus on you and yours.

### Joseph's reply:

Dear Gerhard und Burgunde,  
the Lord said [HGt.01\_034,37] that "no one should MANIPULATE the Word that He has communicated to Lorber", **but he did NOT said: "DO NOT do the Summary of My Word."** Otherwise Kurt Eggenstein, Walter Lutz, Portuguese friends and others around the world would have done the "Summaries" of the work THE NEW REVELATION..

If you do not need the "milk pap", the whole world expects these "paps". In fact, the "Summaries" done so far are entirely made up of "Words of the Lord" and of some "individual and personal interpretation of the author", but those reading these Summaries understand NOTHING anyway, as the authors themselves have understood LITTLE about the monumental project of God.

I publish now just one example, taken from different Summaries circulating in the world, in where it is also published the following revelation:

[HG 1.5.2] The **Deity** was from eternity the power permeating all endlessness of infinity, and It was and is and will forever be infinity itself. In the center of Its depth **I** was from eternity the Love and the very life within It; but behold, I was blind like an embryo in the womb. The Deity, however, took pleasure in Its love and pressed hard towards it And the Love felt hotter and hotter in its center, masses upon masses of the Deity assailed it and all powers and forces stormed towards it.

[HG 1.5.4] And **God** saw the great glory of His Love within Him, and Love was strengthened with the power of the Deity, and thus the Deity united with Love forever and the light issued from the warmth.

Dear friends Gerhard und Burgunde,

in these summaries there have certainly been published the divine Words (highlighted in **color**) drawn from the work of Lorber, but the authors of these summaries did **NOT explain** who is the **DIVINITY**, who is the **"I"** and who is **GOD**.

In my Summary, however, with the **help of the worldwide scholars**, i.e. of their INTERPRETATIONS and INSIGHTS, it will be issued an "attempt to explain / interpret", namely those "milk pap" for babies that many friends of Lorber worldwide are in need of.

Best wishes to you.

# ALMOST ALL OF SCHOLARS OF LORBER SAY : NO ! TO "ORGAN TRANSPLANT"

We thank four scholars of Lorber's work THE NEW REVELATION for thinking it right to publish **their own views** on the issue: "Organ Transplant".

As you will now find out, they are **all AGAINST** and only one partially FOR the organ transplant.  
So we publish the "**personal opinions**" sent to the Journal by scholars of Lorber.

-----

1) THE GERMAN SCHOLAR KLAUS IS FOR A TRANSPLANT OF A NOT VITAL ORGAN, BUT IS AGAINST TO THOSE DRAWN OUT AFTER THE "BRAIN DEATH".

## Organ donation

When it comes to an organ, whose explant **does not endanger** your life, you can for sure just give your permission in exceptional cases out of love for the others.

The "quartering" (explant of the heart etc.) after the so-called **brain death** must be refused because the person is still alive, is in the process of death and it is not certain that he is going to die. There are enough examples that show that people woke up after the so-called brain death and continued to live. \*)

A permission **to organ explant after** the so called **brain death** is almost a suicide, because everyone should know that **brain death** does not mean death and that therefore is been given permission to the clinical killing! \*\*)

\*) See the Christic booklet (without knowledge of Lorber) Regina Breul talking with Wolfgang Waldstein: "Brain Death - Organ donation - and the church is silent," media maria, 2013, ISBN 978-3-9815943-5-5

\*\*) Detailed comments: Elisabeth Annau: The New Revelation on organ donation, Michael Nolten: On the issue of organ transplant - a critical remark from the spiritual point of view. See [www.Jesus2030.de](http://www.Jesus2030.de) under "Ethical issues / current".

On suggestion of Klaus Opitz, we examined the site [www.Jesus2030.de](http://www.Jesus2030.de) . Here is the summary:

The brain dead are actually dying men. Only vital organs can be explanted and transplanted. The voluntary organ donation is an exhortation to self-murder, a help to suicide and is the same as giving relatives permission to help to die.

With organ transplants man wants to decide over life and death, he launches an attack on the Order and the Will of God.

In a society where everyone wants to stay young and healthy, everyone is hoping to secure his own survival at the expense of the other.

And then there's the worldwide business of the organ trade. And the big earnings you get by selling the transplanted the immunosuppressants to prevent rejection, not to mention the valves, batteries etc. It is a business as flourishing as drug and weapons traffick.

And then the spiritual aspect: It almost seems a plan of Satan to prevent the soul from returning to God.

And the "receiver" of the organ can never come to a true knowledge of self, being "possessed" by the spiritual inclinations of the donor whose soul has never really detached from the explanted body parts.

And disease has its own purpose, being allowed by God as a means of repentance of the soul for the evil done.

**NOTE. A German friend told us about two other sites on the transplant of organs. We did the summary of the several pages. Here are the views of two other scholars.**

## 2. THE GERMAN SCHOLAR HELMUT BETSCH IS **AGAINST** ORGAN TRANSPLANT

The fundamental question is: "When are men really dead?"

- 1) According to the divine Order for a death according to the Order it is necessary the dying time intervening between the so-called brain death and the final cardiac death.
- 2) Because of the rejection, additional transplants are often required. Therefore you should let men die their natural death.
- 3) There are often excruciating pain due to poor numbing. But even at best, organ transplant **remains a sacrilegious attack on the Order of Creation and therefore no one should give his consent to organ donation.**

## 3. THE SWISS SCHOLAR GERD KUJOTH IS **AGAINST** ORGAN TRANSPLANT

He is against the transplant because in those brain dead, before they were anesthetized as it happens now, you saw spontaneous movements, increases in blood pressure, reactions with changes in sweating, or even they woke up with fear and they screamed when the doctor plunged the knife.

There are evidence of transmission of current in the brain and the blood circulation in the brain still works in the brain dead. After the removal of the organs the doctors do not let relatives see the corpse and with good reason. In fact, a mother was shocked seeing her son become an old man in a few hours: the blond hair was white, his tongue was hanging out, he seemed to have been tortured.

Neither does the receiver do better. There are no actual healings, because the relief from symptoms is often only temporary. The pains start again soon, although in a different way; and these complications and side effects go untold to the public opinion.

Also personalities blend together, as in the case of a transplanted that before could not stand beer, and then took to it, just like her donor. This happened because the soul of the donor was still tied to its organs, because this is not the real death and causes a very painful shock to the soul.

And then there is the incentive of the crime with the illegal trafficking of organs to the detriment of slum orphans that are operated to have their organs. Or the poor who give a kidney with the promise of compensation of which they will receive the third part and condemning themselves, by doing so, to a life of pain.

## 4) THE RESEARCHER GERMAN ELISABETH ANNAU IS **AGAINST** ORGAN TRANSPLANT

### **Organ donation: What does the Lord say ?**

Statements of the Bible (Luther 1912) and NEW REVELATION by Jakob Lorber

**Persons declared brain-dead people are still alive**, because only still alive organs can be transplanted, not the lifeless organs of a corpse. In the Bible it is written "the life of the body is in the blood" (3.Mo 17.11) and not in his brain as the modern legal definition of the point of death wants us to believe.

JESUS explains, as the seat of life in man, that the soul builds first the flesh and blood and then the soul itself takes out of these two elements the nourishment necessary for its formal completion, so in the blood are to be found ethereal soul material and the substances that constitute the soul. ((GEJ.03\_170,09; GEJ.03\_121,03; HiG.03\_40.06.17,03-05). Then HE makes it clear that the organism of each man has **his vital nerve near the middle of his heart**, a very small cluster, **from which all the vital organism is animated.**

This small nervous cluster of the heart has the characteristic of attracting to itself **the vital ether from the blood** and from the air inhaled to the point that they, in the first place, remain extremely vital and secondly **they communicate this vital activity to the whole organism, and this way they revitalize the entire body in the suitable way.** (GEJ.05\_114,02). By means of two small rooms that are found in the **heart**, which correspond to the two large chambers of the blood, **it is created the necessary condition for the life of the entire body and of all its many parts and organs. Through them with every heartbeat life is communicated to the whole body.** (GEJ.08\_056,05-9; s.a. GEJ.05\_114,05,).

In the Bible, the Lord says unambiguous words: *"The life of the body is in the blood, and I gave you on the altar so that your souls will be reconciled. In fact, the blood is reconciliation because life is in it [...] the life of the body is in its blood as long as it lives."* (3.Mo 17.10 to 14). *"The blood is the soul; therefore you must not eat the soul with the flesh"* (5.Mo 12.23; 1.Mo 9.4), so do not take in extraneous soul parts either along with transplanted organs. Here we find the immediate explanation of the mutations of essence in people who have organ transplants.

Mathael describes the process of death as follows: "[GEJ.04\_128.7] *When I saw the mist still expanding and condensing above the pit of the chest of the ill person, the body was still alive and groaned now and then like someone who is plagued by a heavy dream.* [Note: During the explant of the organs the brain dead shakes, has contractions, that's why he has to be fixed to the bed and is given strong narcotics or muscle relaxants.] [...] [GEJ.04\_128.8]..... *In that moment when the vapour column was completely separated from the pit of the chest, I observed two appearances. The first consisted of the complete dying of the body, and the second, that the very white misty vapour mass transformed within a moment into the well-known wife of the neighbour.* [...] GEJ.04\_129.1] Says I: *"The visible mist [...] is the result of **the great distress of the soul during the moment of separation**, in which she, because of all the **fear and terror**, is for a few moments kind of unconscious.* GEJ.04\_129.2] *It is **an extraordinary activity strain for the separating soul, to maintain herself in her self-conscious existence.*** If this is the normally occurring process of death, what a torture must be to have your own organ removed while your body is still alive and not ripe for death!

No one is justified, [GS.02\_078,12] *If, then, we are talking about the commanded preservation, it goes without saying, **however, that every being has even less the right to destroy, by any means, the spirit of his brother, as well as his own, and to make them in this way incapable of achieving eternal life.*** [Note: This also applies to donations of organs from living!]. [GS.02\_078,13] *It is true that God kills every day the bodies of men, **but that happens at the right time**, that is when the spirit, in one way or another, has achieved a certain maturity. Even the angels of heaven, as constant servants of God, strangle continuously bodies of men on Earth, but not before they have been given the task by the Lord, and even then only of the kind and in the way the Lord wants it to be !!!*

Through a donation of organs any further soul- spiritual development can not take place, as a part of the soul is imprisoned in an extraneous body. *"The soul is bent toward the ground; its body is stuck to the ground"* (Ps 44,26). *"For What advantage has a man in gaining the whole world if he loses himself or hurts himself?"* (Lk 9,25) *"if it hurts his soul? Or what can a man give to redeem his soul?"* (Mt 16:26; Mk 8:36) *"Don't you not know that your body is a temple of the Holy Spirit that you have [received] from God and that you do not belong to yourselves?"* (1.Cor 6:19; Ro 14,7-8). *"He, however, the God of peace, may sanctify you completely, and **all your spirit along with the soul and the body must be preserved blameless for the coming of our Lord Jesus Christ*** (1.Tess 5.23). How can a man reach the afterlife robbed of his organs that bind him as a strong rope to an inhabitant of the Earth?

**Only the Lord is lord of life and death:** "God who made the world and all that is contained in it, he, who is a lord of heaven and earth, does not need anyone, as he himself gives everyone life and breath everywhere (Apg 17,24-25)! "In his hand lies the soul of every living thing, and the spirit of the flesh of all men" (Hi 12,9-10). The LORD Himself: "I am the Lord your God (Exodus 20.2)" Make sure that I am the one and that there is no other God but Me! I can kill and make

alive, I can hit and heal, and no one is safe from My hand (5.Mo 32,39). 18. *If I kill the man's flesh when his spirit has to go to life, then this is a very small death; But you, in My Fire, you will find a great death forever, and then you will see how much you will not be killed in the My Fire!* 19. *But what is the separation of the flesh? It is nothing but a liberation of the spirit, then his resurrection from death to true life and most perfect!* (HGt.03\_021).

Jesus exhorts us with: „... *not consider him dead before the **real characteristics of death** are clearly becoming visible to him.* [GEJ.08\_084,03-04].

**Only the Lord is the healer:** *"I am the Lord and there is no savior but me. You are my witnesses, saith the Lord; so I am your lord. I have been your lord before there was a day and there is no one who can be safe from My hand". (Jes 43,11-13). I am an only true world Saviour for all people and not only have the power to heal only the body of people by My will and My word, but also free the souls of people from their long straying and can give them the everlasting life". [GEJ.06\_097,09] "..... Talking to this ill that only I am the one and **only** right Doctor and I can help those who want free of charge." (HiG.01\_41.01.25,02).*

*But because He created man for a higher and eternal life, **and let them exist on this Earth** only as long until they have gone through the strictly necessary test of their free will, or at least through the existence in the flesh, it is a true and living hobby of God regarding His human beings, **that He only let them live in the flesh on this miserable world as long as it is strictly necessary for this or that person.** [GEJ.07\_217,02]. "All flesh is like grass and withered" (1.Pt 1.24; Jk 1:11) "What advantage have I got to drag my flesh with my teeth and put my soul in my hands? See, he will certainly kill me and I have nothing to hope for; yet I will defend my ways before him. He will certainly cure me "(Hi 13,14-16). "Make sure you do not give way to the flesh through freedom (Gal 5,13), as "he who sows out of his flesh, out of his flesh shall of the reap corruption; he who sows out of his spirit, out of his spirit, will reap eternal life (Gal 6,8; Rö 8,12). So "I expect and hope that in nothing I will stay confused; still better in full confidence that, as always, even now Christ will be magnified in my body, whether I live or die (Phil, 1,20-21), and so we " rejoice and we still want to get out of the body and be at home with God (2.Kor 5,8) because "we yearn inside ourselves for the adoption and wait for the redemption of our body". (Rö 8,23).*

**The LORD:** *"Strive then to unify in Me already here your life, so one day the death of the body will appear as a great rising sun appears to the traveler who is on a night sea coast which is full of rocks and chasms. Believe Me that is so, and then no one will steal more inner peace! Thus saith the Lord of life and death! - Amen, Amen, Amen." (HiG.01\_41.04.29,08]*

## 5) THE GERMAN SCHOLAR WILFRIED SCHLÄTZ IS **AGAINST** ORGAN TRANSPLANT

### Organ transplant - (JLI-3)

**1.** The materialistic understanding of the world or of the mind believes neither in a soul nor in an eternal continuation of the life of the soul, because it thinks the soul to be a part or function of the material brain, and then it thinks it's all over with brain death. Therefore, the understanding of the mind wants to extend artificially the material life of its body of flesh by all means. The spiritual understanding of the heart instead believes in the eternal continuation in the afterlife of the life of its soul and rejoices [thinking of] the final liberation of its soul from the prison of its material body of flesh.

**2.** The organs can be transplanted only as long as the heart is still beating, that is, until the soul has not left for good the body of flesh that is dying. Therefore, they artificially contrive so that the heart of an organ donor continues to beat, namely, that the soul can not yet leave for good its physical body. Therefore, the organ donor is also anesthetized so that he does not suffer or can not oppose himself to the removal of the organ through which the body of flesh is then truly killed and the soul is separated forever from the body of flesh.

**3.** The material body of flesh belongs forever to its soul and is transfigured after an appropriate time from matter to substance and is then added as a garment of light for the soul. Therefore the soul and the body of flesh of the organ receiver are opposed to the extraneous organ, and only through a massive suppression of the rejection reactions, is the body of flesh of the organ receiver obliged to keep the extraneous organ. As long as the transplanted organ in the body of the flesh of the receiver continues to operate, it can not decompose, so that the soul of the giver must wait longer for the transfiguration (resurrection, transformation in a garment of light) of his deposed body of flesh.

**4.** The organ donor's soul continues to be connected to his donated organ especially when the donated organ contains specifics of intelligence (sparks of soul), transformed into matter, of organ donor's soul. As a result, there is often a possession of the organ receiver's body of flesh, so that the latter all of a sudden behaves in a totally different and strange way, which happens particularly after heart transplants.

**5.** For all these reasons, **the believing understanding of the heart will never accept an organ transplant** neither as a donor nor as a receiver, because it is an expression of materialistic disbelief, and a meddling in the divine order of Creation, which is totally blind from the spiritual point of view.

## 6) THE ITALIAN SCHOLAR GIUSEPPE VESCO IS **AGAINST** ORGAN TRANSPLANT

**INTRODUCTION N.1:** On March 27, 2015 the following news was released:

<http://www.lastampa.it/2015/03/27/scienza/tuttoscienze/primo-trapianto-di-cuore-da-cadavere-in-europa-5NXrhFhqe7dPCQEemoJtL/pagina.html>

### First heart transplant from **a corpse** in Europe

In the UK for the first time in Europe a heart transplant **was carried out after the organ of the donor had stopped.** The surgery was completed a month ago at Papworth Hospital in Cambridgeshire, on a 60 year old man who received **a heart from a corpse**, and it was utterly successful. The patient, in fact, has got back home and is fine now.

**So far it was only possible to transplant still operating hearts taken from patients in a state of brain death.** But surgeons of the British hospital have shown that even **a dead heart can be reactivated.** [...]

**INTRODUCTION 2:** On 10 April 2015 the following baffling news was released:

[http://www.ilmessaggero.it/SOCIETA/NOLIMITS/trapianto\\_testa\\_volontario\\_cavia/notizie/1288529.shtml](http://www.ilmessaggero.it/SOCIETA/NOLIMITS/trapianto_testa_volontario_cavia/notizie/1288529.shtml)

### **Head transplant, is the first guinea pig: a 30- year- old with a serious illness.**

**Valeri Spiridonov**, a thirty-year- old computer programmer in the city 'of Vladimir (Russia), explained why he volunteered as a guinea pig for the first head transplant in another body, announced two years ago by the controversial surgeon from Turin (Italy), Sergio Canavero. [...]

This would be a unique event in the world after the first attempts to **transplant a monkey head made about 45 years ago.** After all what seemed impossible or pure science fiction in the past has come true: the first **heart** transplant in 1967 to that of **entire limbs**, as the new **hand** 'obtained' in 1998 by a man in France, to the first **face** transplant carried out in Spain five years ago

**Dear Lorber's friends from all over the world,**

from the TWO above published Introductions, we have learned that science is evolving dramatically, to the point of attempting a HEAD Transplant on monkeys to be next carried on man! This fact, however, is another NEGATIVE reason to add to a my 9-page article, on the Italian Journal N. 169, March 2012, entitled: **"THE ORGAN TRANSPLANT IS FORBIDDEN BY GOD."**

Surely many people who have received a **new organ** are happy to be able to continue to live after the replacement of the sick one, although I read somewhere that some persons who had some organs transplanted have had **"enormous problems of personality"** after the transplant. For example, the New Zealander Clint Hallam, in September 1998 had his transplanted hand amputated since, as he stated, he had never been able to get used to the new hand that he continued to feel **'extraneous'**.

Not only that, but on magazines and newspapers it has been learned that some of the heart transplanted perceive **"new sensations"**, such as the desire to drink alcohol, smoking and other vices, exactly the same vices that the donor had. It is as if it were **"an identity swap"**.

And finally it has been learned that there is a sort of "hunt after organs": children and adults of the Third World, or the prisoners of war in other parts of the world, are being killed and then the organs taken from these murdered victims are sold to the rich for heaps of money.

But this is NOT the greatest **infernal** victory achieved by the "organ donation"!

Actually **Satan's SUPREME victory** is the following:

**ALL the sick of the world resort only and exclusively to the "god-doctor" instead of turning to the one true God, the Lord Jesus Christ, which is also the only true DOCTOR, to ask Him for healing.**

And these billions of sick of the whole earth - after the success of surgery - go to thank, adore and idolize the **"god surgeon"**, because **"he is the true god"** who saved their lives.

And thanks to such "temporary salvations ", the REMOVAL of God has reached TODAY the same level as the time of Noah's "not" universal Flood, i.e. the time in which God has "allowed Asia to be destroyed", since NO ONE believed in Him any longer and nobody turned to Him any more.

CONCLUSION: Those who have read Lorber's entire work are now aware of the fact that the Lord has certainly taught to **HELP the sick**, but they have also learned that **HEALING IS NOT ATTRIBUTABLE TO "ALL" HUMANS** (and thus also doctors and surgeons), He even stated that **"this power is given only to a few"** and that **only these few** KNOW **"WHEN"** IT IS GOOD TO HEAL and they also know **"WHEN"** IT IS GOOD **"NOT TO HEAL" A SICK.**

To get persuaded of this, you must read the following Revelation of the Lord:

[Jesus says to those to whom He Himself gave the power to heal in His Name:]

[GGJ 5.75.8] [...] Truly you should never withhold a healing from anyone, where my spirit says to you in your heart: **Help this person!**, but if the spirit says to you: **leave him in the torture of his flesh, so that his soul will have enough of satisfying the desires of the flesh!**, then leave him and **do not heal him from his fleshly evil "for he should tolerate it for the salvation of his soul!**

QUESTION: "According to you readers, a **doctors of today's** physicians perceive in their hearts the words: "**YOU MUST HEAL THIS MAN**" – or – "**YOU MUST NOT HEAL THIS MAN**"?

QUESTION: «But do the millions of doctors of the entire planet know that the Lord said that "**diseases, pains and sufferings are divine Gifts useful to save the soul, which is the only real being that will live forever**' ?»

Let's see if the doctors of the world know what comes next:

[GGJ 6.162.6] **If God now wants to preserve the soul of such people for the everlasting life, He must help her through all kinds of bodily suffering, namely to such an extent, that such a too much to the world attached soul through some **suffering and pain** is more and more pulled away from the world, since otherwise she would be totally attracted to and consumed by matter and the world and its death and judgement. And see, **this is the reason why now on earth people have to endure a lot of suffering!****

Those who have read the entire Lorber's work will certainly have realized that "**God looks beyond!, God looks at the future!, God looks to eternity!**"; he is concerned exclusively with the **true entity** of His children (which is the **soul**) and not the physical bodies of creatures that live on Earth only "a few earthy days".

**But those who have NOT read Lorber's work**, then, those who have NOT been lucky enough to know the **great eternal Truths** (*starting from the existence of a God Creator, from the continuation of life after the body's death to His huge project to create for Himself children whom He is going to live forever with*), **well, they are perfectly free to have all the organs they want replaced**, because they know one and only one thing, which is that - after their death - they body will put under two meters of earth and their entity will cease completely and forever.

They, therefore, are exclusively concerned with their physical body, as they have NOT been able to discover, during their entire life on Earth, that "inside" their body **that was the spiritual and eternal one: the SOUL!**

But unfortunately WE Lorber's friends from all over the world, even though we have read the entire work THE NEW REVELATION, we are **WEAK CREATURES**, because we were NOT able to eliminate for good our "materialism", our "selfishness" our "lust" and our "vices". Here is why the Lord is "forced" to allow **DISEASES** to affect even US, His "**WEAK CREATURES** "!

And the proof that WE also are **WEAK CREATURES**, is that we have little faith in the Lord", because, if we had a **STRONG faith in Him**, we would just commit ourselves into **His Hands**, and not in the hands of a **pharmacist**, a **doctor** or a **surgeon** who is there ready with the "spares = organs for the transplant".

Dear Lorber's friends from all over the world,

let's get therefore **much more** active into eliminating the pleasures and desires that keep us still clinging to this material and transient world, and so we would never need **medicine**, **doctors** and **organ transplants**.

And now that I have finished to express my long perspective that can also be incorrect or that could have bored more than someone, I publish the revelations of the Lord that I found in the Work of Lorber, so that you yourselves may have a "personal concept" relating to the issue of **THE ORGAN TRANSPLANT**.

DONATE YOUR ORGANS MAY 'BECOME A "SUICIDE"

[GGJ 8.84.2] **I said**: "If you cannot change it, then let the old custom be. But burning is still better than embalming by which the decomposition process is strongly slowed down. However, **it is best to burry the body in the earth**. But one should take care that a body is only buried when it is completely dead, which a doctor surely must be able to make out based on **the color of the face and the evil smell of decomposition**, because with the apparently dead the actual characteristics do not take place. Therefore, they also should not be buried before they are unmistakably dead.

[GGJ 8.84.3] A perfect person will of course never come into an apparently dead state, but it can easily happen with a **materialistic person craving for pleasure**, because his soul often clings with a too great love to his flesh. **When such a person becomes cold and stiff, has no more breath and pulse and gives no more sign of life, the soul is still in the body** and makes agonizing efforts to bring it to life again, in which he will also often **succeed after a few days**. But if such a person is buried too quickly into the earth and then comes to life again in the grave, also regarding the body, then you surely can imagine that this must bring up for him a condition of very great despair, even if it is only for a few moments. However, if you live according to My teaching in which especially you should practice neighborly love among each other, then it most certainly is also a deed of true neighborly love that you be very **careful that no apparently dead person is burned or buried. If you discover that someone is apparently dead, bring him in an area with good and fresh air, pray for him and lay your hands upon him, then he will be better.**

[GGJ 8.84.4] If someone's **apparently dead** state is more persistent, then be patient and do **not consider him dead before the real characteristics of death are clearly becoming visible to him.**

THE MAIN CAUSE OF DISEASES

[GGJ 6.162.2] **Said I: "Like man wants it; it depends mainly on himself. Even most of the life sicknesses are the result of all kinds of sins which a person already commits continuously from his youth until his old age and finally also out of a sort of habit. Some illnesses of a person are an inheritance of the parents and grandparents to their children and grandchildren, because in that case the parents and grandparents have already sinned.**

PAIN, SUFFERING AND DISEASES ARE "HEALTHY" FOR THE SPIRIT

[HiG.03\_48.09.03,27] (The Lord :) **So Elizabeth should not be worried if she has still to suffer, because in the place suffering is healthy for her spirit.**

[GGJ 6.162.6] **If God now wants to preserve the soul of such people for the everlasting life, He must help her through all kinds of bodily suffering, namely to such an extent, that such a too much to the world attached soul through some suffering and pain is more and more pulled away from the world, since otherwise she would be totally attracted to and consumed by matter and the world and its death and judgement. **And see, this is the reason why now on earth people have to endure a lot of suffering!****

THE LORD CAN NOT HELP THOSE SICK WHO  
TRUST DOCTORS MORE THAN HIM

[HiG.01\_40.08.29.c,04] **"It is difficult to help in these cases, where patients trust only physicians, and very little in Me, so that their faith will help them".**

[HiG.02\_44.09.13,02] **If you believe in your heart that I can and I will always help you when you need only and always My Help, the only right and true one, and when for this you turn to Me with utter trust always in a lively way for Me to help you - then you must also always be helped!**

[HiG.02\_44.09.13,03] **But you shall not seek help from Me and simultaneously from the worldly art, because worldly art can only ruin to the same extent as I help you.**

[HiG.02\_44.09.13,04] **The recipe for health you've had in any case entirely by Me. Stick to it, then you will have little to do with the doctors of the world.**

THE LORD ALLOWS THE WEAK IN FAITH  
TO RESORT ALSO TO DOCTORS

[HiG.03\_48.08.17,10] **However, if you want a doctor, then it can also get him. Trust, however, not so much the doctor, but rather only Me, with a confidence, which is true alive and therefore free of anguish and fear, so the remedies of the doctor will act in the most healthy way. But if you have more trust in the doctor than in Me, then he will be of little or no help for you.**

[HiG.03\_48.08.17,11] **Your fear and anguish, however, is for you a sure marker revealing whether or not you have full confidence in me, because any fear and anguish are the result of a weak faith and trust in Me.**

THE LORD PERMITS THE USE OF MEDICINES  
TO THE SICK THAT HAVE LITTLE FAITH IN HIM

[HiG.03\_45.09.15,03] **If you, in a lively way, seek help only from Me, then you will become perfectly healthy**, because then in My Love you will bring in your own chest the most powerful remedy against all evil, which is the only medicine and only panacea!

[HiG.03\_45.09.15,04] As you see, **all the earthly medicines** are like, as to their effect, a battle of infernal spirits one against the other, **and are therefore always a real malum contra malum (evil against evil)**.

**My help instead is, in every respect, a true bonum against malum (good versus evil), so it is that true remedy by which alone man can be cured at the root from all evil for ever!**

[HiG.03\_45.09.15,05] **But if you already have a too thin living confidence in Me and seek My blessing more in Nature than in Me, the Maker of Nature, then you can also use the "Gospel ointment"**, but with great tranquility of mind, and so certainly your nerves will get better; only rarely you let them enjoy a strengthening invigorating mountain air.

MEDICINES "REDUCE" THE FAITH IN THE LORD

[HiG.03\_48.09.03,06] Therefore **My Word and living faith** are always the best medication also for the flesh [body], and no pharmacy has a better one. But **for the weakness of your faith and fearful weakness of your trust, this purest medicine** is not enough and cannot be enough, because you still cling with too great an anxiety to the life of the flesh [body] and all too soon you become overly fearful and weak in the faith when something happens to the flesh [body]. So **in addition to My Word you pretend also a medicine**, then or clay, or the water in the pool of Siloam; without these you are not to be helped.

[HiG.03\_48.09.03,07] And therein lies the heart of the matter, as you use to say. In fact, **if I grant you that medicines cure your diseases, this will weaken your faith in My Word**.

THOSE WHO HAVE A VERY STRONG FAITH IN GOD  
RECOVER WITHOUT MEDICINE AND WITHOUT DOCTORS

[HiG.03\_48.08.17,06] Well, these are your secret scruples with which you, as I said, always value the remedies recommended only from the point of view of **a half-faith**.

**Me, instead, here you do not value at all**, precisely because you believe, or at least you are of the opinion, that I can and will help only with one remedy that is the most appropriate - as if I were not strong enough to be **able cure all evil** with every remedy; yes, **in the case of a very living faith, even without any remedy [no medicine and no doctor]**.

What matters the remedy?

[HiG.03\_48.08.17,07] **I am the living Remedy, without whom no other is effective, whereas all of them are effective with It!**

DOCTORS ARE NOT AUTHORIZED BY GOD TO HEAL  
THE SICK BECAUSE DOCTORS DO NOT KNOW  
IF THE HEALING IS USEFUL OR NOT TO  
THE SALVATION OF THE SICK'S SOULS

[GGJ 9.43.6] **A 4th sign of My powerful presence with, in and amidst you will be that the physically sick people will improve when out of true neighbourly love you will lay on your hand upon them in My name, if the improvement will be beneficial for their soul.**

[GGJ 9.43.7] It is however obvious that at the same time you will always say in your heart: *'Lord, not my will, but only Your will be done'*. **For you cannot know if and when it will be beneficial for a soul that his body should improve, and an eternal life on this Earth in a body is given to no one.** Therefore, the laying on of hands cannot free always and everyone from their physical afflictions. But still, you will not commit a sin when you will show this love that has been indicated to you to every sick person.

**I will be the Helper if it will be useful for the salvation of the soul of the person – and this, only I can know.**

IT IS AGAINST GOD'S WILL TO "SAVE THE LIFE  
OF THOSE WHOSE DEATH GOD HAD PERMITTED"

[GGJ 5.136.4] **For whenever I let a child die, that certainly has its highest important reason, and it would be against My will and against My order to awake such children back to earth.**

**“PICTURE SUMMARY”**

**OF LORBER’S WORK “THE NEW REVELATION”**

**THE SCHOLARS ALL OVER THE WORLD (and those who understood the work of Lorber) ARE INVITED TO SEND TO [associazionelorber@alice.it](mailto:associazionelorber@alice.it) :**

**THEIR POINT OF VIEW AND REFERENCES BASED ON NEW REVELATION (EXCLUDING Leopold Engel) ON THIS "FIRST" THEME:**

**WHO GOD IS**

**WHERE GOD DWELLS**

**WHAT GOD LOOKS LIKE, WHAT FORM AND CONSTITUTION HE HAS**

**THIS IS A "LIMITED" EXAMPLE OF WHERE GOD DWELLS AND WHAT HE LOOKS LIKE:**

*[This is the answer the Lord gave to a man who had asked: "But where is God and what does he look like?":]*

**The God of Eternity, the Supreme Being, dwells – in the form of Man – in His inaccessible Light, called the "Sun of Grace", which is the "Central point of Himself" »<sup>(1)</sup>.**

NOTE: The "Picture Summary" will be written in **bold** (References will be published in the last pages), while the introductions and personal interpretations of scholars all over the world will be written in italics and in square brackets [...]. There will be **many colour PICTURES** to make INTELLIGIBLE the grandiose Project of God, even to children.

<sup>1)</sup> GGJ 6.88.3] But for as long you still ask and say: '**Yes, where is this God and how does He look like?**', I say to you, [...] **God is a person like I** and also you and **lives in an inaccessible Light which** in the world of the spirits is called the **Sun of Mercy**. This Sun of Mercy however, is not God Himself, but is only the effectuation of His love and wisdom.

[HG 2.72.21] And I promptly turned my eyes upward and instantly saw in an endless Depth of depths of infinity also an immeasurably **great Sun and in its center You personally, O holy Father!**

[GGJ 4.122.6] **I'm only the everlasting Centre of Myself**; from there I still fill for ever in an unchanging manner the infinite space. [7] I am everywhere the everlasting Me; but here among you I am in the everlasting **Centre of My Being**, from where the whole of infinity is for ever and ever and unchangingly maintained in the same manner in its most infinite, everlasting extent. [8] **Since Eternity I resided in My inaccessible Centre and in My inaccessible Light out of Myself.**

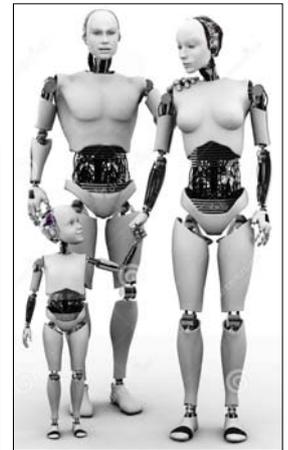

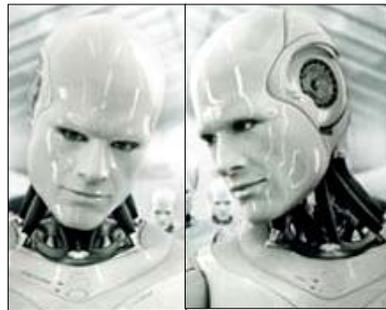

ANOTHER EXAMPLE TO EXPLAIN "WITH PICTURES" THE FOLLOWING THEME:

## **GOD DOES NOT WANT TO LIVE WITH "ROBOT CHILDREN"**

[GGJ 5.71.10] [...] If God wants **puppets and robots**, an instant will be sufficient to fill the whole visible space with them. [GGJ 5.71.11] **But all these beings cannot have their own and free will, nor their own existing, independent life.** They will stir and move only according to the will of God that comes to them.

Their eye will be the eye of God and their thoughts will be the thoughts of God. Such creatures will be just like the individual limbs of a body that cannot move or be active in themselves without your recognition and desire.

[HGt.03\_025,16] **But the work is still like a dead car** in the hands of his will, not moving otherwise than only does the will of the craftsman impress it to move, and it speaks only of what the creator inspires in it with the thought in it, and that he wants to be uttered by the work itself.

## **"JESUS-GOD" WANTS TO LIVE WITH "HUMAN CHILDREN"**

(i.e. "children who have formed by themselves their personality")

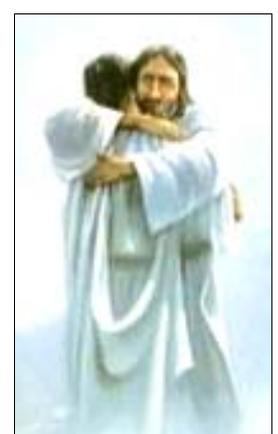

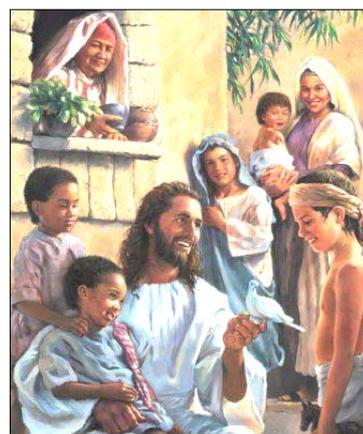

[GGJ 3.241.2] You know **that every person must form and transform himself according to the recognized divine order, quite independently from the omnipotence of the divine will in order to become in this way a free child of God.**

[GGJ 5.157.2] **I say, "Yes, yes, it could indeed be different, as it is different on countless many other planets; but then exactly this Earth would not be chosen for the cultivation of those people who are designated and called to become My children!"**

[HG 1.3.3] **However, the people of this earth I called forth from the center of My heart and created them fully in My image. They were meant to be not just My creatures, but My beloved children who were not meant to perceive Me as God and Creator, but as their good Father who will, after a short trial period, take them back into His house to share everything with Him, dwell with Him everlastingly and rule and judge the universe with Him.**

[HG 1.3.10] **Oh, What are all the joys and beatitudes of My heavens for Me, the Father, compared with the bliss to be loved by My dear children as their only true Father!**

[HG 1.3.11] Behold, I give you all the beatitudes **for this one bliss, which I have reserved for Myself.**>
